

# Relational Ministry Trainings

*Presented by Partners in Hope — Texas*

***Want to help your church or nonprofit make a greater impact on your community?***

These compelling, transformative training workshops can:

- lead to meaningful changes in the way you interact with neighbors in need
- equip your volunteers to serve in relational ways, rather than one-time, transactional means
- and fuel partnerships with other groups in your community.

*The ultimate goal?* Helping your ministry build relationships with people who are struggling to do life alone and who need connection to the Body of Christ. You'll see God do what only He can do!

## Training Option #1: Developing Culture

### ***The Power of "With"***

**Flexible Session: 2-5 hours**

*Making a greater impact with a relational ministry culture*

- Perfect for leaders, organizers, and decision-makers in churches and faith-based nonprofits

This training explores the Biblical basis for adopting a relational ministry focus and provides a detailed framework for developing that culture in your organization. It will help you think differently about your serving model, develop partnerships with other ministries, and create a strategy for engaging your community. You'll also learn about the importance of training your volunteers to share the gift of ongoing presence ("walking with others").

## Training Option #2: Practicing One-to-One Interactions

### **Walking with Others**

**Session: 2 hours**

*Increase your impact by shifting the way you serve your community*

- Perfect for any ministry volunteers—from older teens to adults, including individuals, small groups, and leaders

This training starts with an overview of the value and impact of relational ministry, followed by eight practical guidelines for building relationships with people in need, including your neighbors. In this workshop, attendees gain concrete strategies for shifting the way they serve others while growing in their confidence to share Christ in a relational way.
